

Prairie Song Academy Tuition Scale 2025-2026

To use this scale:

- Locate the scale below for elementary, middle, or high school students (each is different).
- Find the row that shows the number of people living in your household.
- Find your household's gross income* for 2024 in that row.
- Find the letter of the column in which your income (for your household size) falls.
- Follow the column to the bottom to find the cost of tuition for one child for one semester.
- You may choose to pay the semester's tuition all at once, or over a period of six months; the amount you will pay monthly is at the bottom of the column, under the cost for the semester.
- If you have multiple students attending, add together the tuition for each student for the semester to find total tuition due each semester. Sibling discounts are built into the scale, so you do not need to do further calculations for that.

Example: Let's say I have two elementary students. First, I locate the elementary tuition chart. If there are five people in my household, and the total gross income for my household in 2023 was \$86,000, then my tuition category is letter C. Looking at the bottom of column C, I find that I will pay \$1,657.94 for one child's tuition for one semester. I can pay this up front at the beginning of the semester, or I can choose to pay it over six months. If I choose the six month option, I will pay \$199.75 per month per student (July - December for fall semester or January - June for spring semester). Since I have two children, I will pay $\$1,198.49 \times 2 = \2396.98 for one semester's tuition, or $\$119.75 \times 2 = \399.50 per month for six months. The sibling discount is already part of the scale.

Note that there are NO FEES on top of your tuition amount. No enrollment fees, no supply fees, no fees whatsoever. As tuition does not cover our expenses for the year, we conduct community fundraising to support our sliding tuition scale. You are never required to donate to those fundraisers, but we do need and appreciate your help in making them happen!

If you have extenuating circumstances that make your tuition level unattainable, please contact our Head of School, who will refer you to our treasurer.

Tuition Scale for K-6th Grade Students: Cost of one semester for one student

Prairie Song Academy Tuition Scale 2025-2026

To use this scale:

- Locate the scale below for elementary, middle, or high school students (each is different).
- Find the row that shows the number of people living in your household.
- Find your household's gross income* for 2024 in that row.
- Find the letter of the column in which your income (for your household size) falls.
- Follow the column to the bottom to find the cost of tuition for one child for one semester.
- You may choose to pay the semester's tuition all at once, or over a period of six months; the amount you will pay monthly is at the bottom of the column, under the cost for the semester.
- If you have multiple students attending, add together the tuition for each student for the semester to find total tuition due each semester. Sibling discounts are built into the scale, so you do not need to do further calculations for that.

Example: Let's say I have two elementary students. First, I locate the elementary tuition chart. If there are five people in my household, and the total gross income for my household in 2023 was \$86,000, then my tuition category is letter C. Looking at the bottom of column C, I find that I will pay \$1,657.94 for one child's tuition for one semester. I can pay this up front at the beginning of the semester, or I can choose to pay it over six months. If I choose the six month option, I will pay \$199.75 per month per student (July - December for fall semester or January - June for spring semester). Since I have two children, I will pay $\$1,198.49 \times 2 = \2396.98 for one semester's tuition, or $\$119.75 \times 2 = \399.50 per month for six months. The sibling discount is already part of the scale.

Note that there are NO FEES on top of your tuition amount. No enrollment fees, no supply fees, no fees whatsoever. As tuition does not cover our expenses for the year, we conduct community fundraising to support our sliding tuition scale. You are never required to donate to those fundraisers, but we do need and appreciate your help in making them happen!

If you have extenuating circumstances that make your tuition level unattainable, please contact our Head of School, who will refer you to our treasurer.
